Report

On 3rd July 2018, workshop on paper bag making was held under NSS and Environmental activity. 35 students from S.Y.B.Com attended the workshop. Ms. Deepti Naidu and Ms. Mohanti Meena from S.Y.B.Com taught the students how to make paper bag. This activity was conducted to make aware the students about the pollution created by plastic, and to reduce the use of plastic. Paper bag is the cheapest alternative to non-biodegradable substance like plastic and they can well be put into reuse. Paper bags reduces the garbage which is the main reason for increase in waste and pollutants. One time useable paper bags can be converted into organic manure when mixed with other household wet waste. These paper bags were distributed in hospitals to provide medicines to the warkaries and the people who distribute the food to the warkaries of pandharpur dindi to reduce the use of plastic.
